Inclusive support at CASV

The Centre Against Sexual Violence Inc. (CASV) is a community based sexual assault service dedicated to providing free counselling and support to:

women, young women, non-binary, trans, and gender diverse people,

aged 12 years and over,

from ALL sexual orientations, cultures and ethnicities

who live, work or study in the Logan, Beaudesert and Redlands area

who have experienced sexual violence at any time in their life.

CASV believes that victim-survivors have the right to:

- Be heard and supported in a safe environment.
- Have control over their choices.
- Be given information about options.
- Have their confidentiality and privacy respected.
- Be treated with respect, dignity and understanding.
- Communicate in their own language, with a qualified confidential interpreter if necessary.

What is Sexual Assault?

Sexual Assault is defined as:

Unwanted behaviour of a sexual nature directed towards a person which makes that person feel uncomfortable, distressed, frightened, threatened or harmed: in circumstances where that person has not freely agreed, consented or is incapable of consenting to that behaviour.

Community attitudes towards violence often blame the survivors/victims.

At CASV we believe that survivors/victims are never to blame. The perpetrator is always responsible.

Sexual assault is a crime.

Services in Logan and Redlands are wheelchair accessible.

Our Commitment

CASV is committed to ending sexual violence through **healing, education and prevention.**

Client testimonials

"It has made me feel more confident in my abilities to look after myself and those important in my life!! Thank you."

"I felt heard, understood and supported, especially at times where I didn't have anyone. You helped me when my perception was fragmented and reminded me that people are kind, caring and compassion. I am forever grateful, from the bottom of my heart."

"I finally feel like I am going forward to a new future, instead of being dragged by my old life, I am finally feeling free."
